Dear Citizens,

The Town Hall meeting is our favorite meeting of the year. It's a chance to see friends and neighbors along

with a lot of friendly faces. We love being able to tell you about completed projects along with upcoming ones. Since we were unable to hold that meeting this year, the City Council got together to provide a Town Hall Road Show video for you. It is available on our website and will give you a quick look at all of the great projects that have been taking place around Euless. Check it out!

The CPR program helps homeowners who are in the greatest need of assistance. In order to receive this help, residents must complete an application and meet eligibility requirements. For an application and eligibility information, please visit www.eulesstx.gov/cpr or call 817-685-1821. The next CPR Blitz occurs April 16 and 17, so please spread the news!

COMMUNITY NEWS

COVID 19 Vaccination Clinic in Hurst, Registration Information

A vaccination clinic has been opened in HEB at the Hurst Conference Center. The City of Euless along with several northeast Tarrant County cities and Tarrant County are partnering in this endeavor to staff the site and administer vaccinations to residents. This new location will allow Tarrant County to provide more vaccinations in the coming weeks.

You MUST pre-register to get an appointment by visiting www.tarrantcounty.com/covidvaccine. If you need assistance, you can call 817-248-6299. Once you register, you will receive confirmation via phone call, text or email. This will place you in the queue. After that, you will receive a specific appointment time from Tarrant County. You may also contact your medical provider or local pharmacy to see about an earlier or more convenient option.

Vaccinations are being provided to those at most risk. Phase 1A and 1B includes doctors, nurses, first responders, as well as those 65 and older or age 16 and older with at least one chronic condition that puts them at increased risk for severe illness from the virus. with underlying medical conditions. As more vaccines become available, additional groups will be added until everyone is covered.

If you live or work in Tarrant County, you are encouraged to go ahead and register, no matter which group you fall under, in order for Tarrant County to prepare for the upcoming phases. You will not receive appointment information until your group is being served. Those without appointments will be turned away.

Euless Today is published by the City of Euless.

Take a Walk Through Trailwood Park 500 Trailwood Drive

Spring is an excellent time to enjoy the tranquil serenity of Trailwood Park. This 11-acre park features a playground for children to play on and scenic trails for everyone to enjoy. The shady trees, picnic tables, barbecue grills and pet stations make Trailwood Park a great place to enjoy the great outdoors.

Located between Bob Eden Park and McCormick Park, Trailwood Park connects to both parks by a walking trail. Visit Trailwood Park and see what it has to offer.

Get Free Emergency Alerts With Nixle

March marks the beginning of spring, when weather can bring thunderstorms, floods, high winds or tornadoes. You can get emergency weather alerts in real time by signing up with Nixle. Besides alerting you about severe weather threats, it can also send alerts about severe traffic, missing persons, criminal activities, mosquito control and local events. You choose how you want to receive the notifications: by text, email, voice, web, social media or the Nixle Mobile App.

Simple ways to register:

1. Text EULESS to 888777 from your mobile phone
2. Or sign up at www.nixle.com

Residents may customize their alert settings by going to www.nixle.com and creating a User Profile. All alerts are targeted geographically, allowing residents to receive localized, relevant alerts from the City of Euless. The Emergency Management Division of the Euless Police Department initiates the messages as one of several methods of relaying vital information to citizens. For more information, visit www.eulesstx.gov/nixle.

Smoke Alarm Basics

Smoke alarms are one of the most important fire safety devices you can install to protect you and your family from a fire. However, one smoke alarm doesn't provide enough protection. The National Fire Protection Association (NFPA) recommends installing a smoke alarm inside every sleeping room, outside every sleeping area and on every level of the home. And, it's best if you install alarms that interconnect to each other, so when one sounds they all sound.

Different types of smoke alarms:

- Ionization smoke alarms are generally more responsive to flaming fires.
- Photoelectric smoke alarms are generally more responsive to fires that begin with a long period of smoldering.
- Dual-Sensor smoke alarms combine ionization and photoelectric technology to detect both flaming and smoldering fires, offering you the best protection and saving you the trouble of installing two separate smoke detectors.

Daylight Savings Time begins March 14. Traditionally, switching to and from Daylight Savings is a good reminder to test the smoke detectors in your home and replace the batteries. That way, you know the batteries are fresh. For more information on installing, maintaining and testing smoke detectors, visit NFPA.org.

Testing smoke alarms:

- Test smoke alarms at least once a month using the test button.
- Make sure everyone in the home understands the sound of the smoke alarm and knows how to respond.
- Follow manufacturer's instructions for cleaning to keep smoke alarms working well.
- Smoke alarms with non-replaceable 10-year batteries are designed to remain effective for up to 10 years. If the alarm chirps, warning that the battery is low, replace the entire smoke alarm right away.
- Smoke alarms with any other type of battery need a new battery at least once a year. If that alarm chirps, warning the battery is low, replace the battery right away.
- When replacing a battery, follow manufacturer's list of batteries on the back of the alarm or manufacturer's instructions. Manufacturer's instructions are specific to the batteries (brand and model) that must be used. The smoke alarm may not work properly if a different kind of battery is used.

If you cannot afford to purchase smoke alarms or alarm batteries for your home, the Euless Fire Department may be able to install them for you free of charge. Please call 817-685-1600 or visit <https://forms.eulesstx.gov/forms/smoke> for more information regarding free smoke detectors or to request a fire department representative to visit your home and evaluate your smoke alarms.

Annual Roadway Project Update

The Eulesstx City Council is committed to the upkeep of the City's infrastructure and uses long-range planning in order to guide the maintenance and replacement of the City's infrastructure. The Capital Improvements Program is a comprehensive document detailing all drainage, street, water, wastewater, and other projects. The Capital Improvements Program is reviewed and updated annually to aid the City Council in allocating resources and determining priorities.

All roadways in Eulesstx are evaluated every four years to determine pavement condition and structural integrity. At the conclusion of this evaluation, each section of roadway is assigned a numerical score. This helps to determine what types of preventative maintenance or rehabilitation activities should be performed, or identifies if a roadway needs to be fully reconstructed. The evaluation is also used to prioritize the order in which work is addressed. Each year, the City Council appropriates approximately \$1,000,000 towards street maintenance. Major street reconstruction projects are identified and separately funded.

FY 2019 STREET RECONSTRUCTION

Within the next few weeks, the City will begin a major street reconstruction project that was approved as part of the Capital Improvements Program.

The project includes the complete reconstruction of the following streets:

- Harwood Road, from just west of North Main Street to S.H. 157/Industrial Blvd.
- South Pipeline Road, from Royal Parkway to Highland Drive.
- Highland Drive
- West Pipeline Road, from Raider Drive to Arwine Court

In addition, a new extension of Mills Drive will also be constructed from S.H. 10 to provide additional access to Carr Park. Construction work will be performed in two phases. Construction on the first phase, which includes Harwood Road, South Pipeline Road, and Highland Dr. will begin in the next few weeks with final completion anticipated in November 2022. The second phase, which includes West Pipeline Road and Mills Dr. is scheduled to be bid in the summer of 2021.

You can follow the progress and get updates on this and other City construction projects online at www.eulesstx.gov/constructionupdates or you can sign up to receive email updates for construction projects via eNotifications.
